## **Odisha to establish India's First Tribal Health Observatory**

The Government of Odisha has recently released the news that it will set up India's First Tribal Health Observatory (TriHob) in Odisha. This observatory will establish a repository on the health of the tribal population in Odisha state. The TriHob is the "first in the country". It will be going to perform systematic and ongoing observation of the burden of the diseases, and the healthcare delivery system related to tribal health. It will also observe the health-seeking behavior in Odisha state.

### **Important Points:**

- The MOU (Memorandum of Understanding) was signed between the SC and ST Development Department and the RMRC (Regional Medical Research Centres).
- The Tribal Health Observatory is designed to be a policy-oriented and evidence-based centre.

## **IIT Bombay Collaborated With India Meteorological Department (IMD) For Developing Weather Forecasting App**

- To develop smart climate solutions in cities, villages, and districts, the IIT Bombay has tied up/collaborated with the IMD. The IMD stands for India Meteorological Department)
- This collaboration will help in weather forecasting. It will also result in information-based smart applications for agriculture, health, irrigation, and so on.
- The aim of the IIT is to contribute to the country's mission and achieve the net zero target by 2070. For this aim, the institute also plans to establish a Centre of Excellence in Climate Solutions and Services.
