PREVENTING PLASTIC POLLUTION WITH CIRCULAR ECONOMY

Dr Ranjeet Mehta

India has banned the manufacture, import, stocking, distribution, sale and use of identified single use plastic items, which have low utility and high littering potential, from July 1, 2022. This defining step is the outcome of the clarion call given by Hon'ble Prime Minister Shri Narendra Modi to phase out single use plastic items by 2022. In response to the Prime Minister's appeal, the Ministry of Environment, Forest and Climate Change notified the Plastic Waste Management Amendment Rules, 2021, on 12 August 2021. The Ministry notified the Guidelines on Extended Producers Responsibility on plastic packaging as Plastic Waste Management Amendment Rules, 2022 on 16th February, 2022. Extended Producer Responsibility (EPR) is responsibility of a producer for the environmentally sound management of the product until the end of its life. The Guidelines provide framework to strengthen circular economy of plastic packaging waste, promote development of new alternatives to plastic packaging and provide next steps for moving towards sustainable plastic packaging by businesses.

Impacts of Plastic on Planet Earth

Plastic production contributes to planet-warming greenhouse gas emissions at every point in its life cycle. The world is facing a Global plastic crisis; the status quo is not an option. Plastic pollution is a serious issue of global concern which requires an urgent and international

response involving all relevant stakeholders at different levels. Out of the 8.3 billion tons of plastics produced since the 1950s, 79% ended in landfills or leaked into the environment. From the Mariana trench to Mt. Everest, there is virtually no place on Earth which is left untouched by plastic pollution.

Plastic pollution-whether in our oceans, piling up on our coastlines, or contributing to our climate crisis-impacts vulnerable communities first. Even if plastic doesn't end up in the ocean, recycled plastic is often exported from high-income countries to developing countries to process. But the sheer amount of plastic waste inundates communities until they are drowning under thousands of tons of plastic trash.

In 2015, researchers from the University of Georgia estimated that between 4.8 million and 12.7 million metric tons of plastic per year make their way into the oceans via people living within 30 miles of a coast. The majority of this pollution-dominated by single-use plastic waste-comes from countries lacking infrastructure to properly manage waste, particularly in Asia. India, for example, generates 25,940 tons of plastic waste every day but collects only 60 percent of it.

Marine animals bear the burden of this influx of garbage into their habitats. Beached whales have been found with stomachs full of plastic trash. And recent studies found plastic in the guts of

UPSKILLING & RESKILLING

BOOSTING YOUR EMPLOYABILITY PROSPECTS

Gaurav Bhagat

I came across a person who was looking to be a writer in a reputed organisation. He had an 'ideal' resume- substantial work experience, good grades in college, frequent participation in extra-curricular activities, his own blog and more importantly impressive references. One might think and say, this person should be hired, right? He was impeccable on various HR parameters, a company usually follows.

But, life does not work the way we really want. Same happened during the recruitment process when he appeared before the operation manager after qualifying the preliminary round, he did not get hired. Why? He did not have the skills that the company was looking for in a potential candidate. His domain experience was limited only to content creation and curation. The organisation was seeking a resource that must also have the knowledge of SEO (Search

The Importance of Upskilling and Reskilling

Engine Optimization) and analytics, apart from mastered expertise in the content department. The moral of the story here - in a highly competitive job market, one should keep oneself up-skilled for sure shot chances of selection.

Importance of Up-skilling & Re-skilling

But what do we mean by up-skilling here? We have been hearing this word from every person's mouth now. What we have also been hearing about is the word re-skilling. But, what these two words are! How are they different? And more

importantly, why are they necessary?

Well, in simple terms, re-skilling simply means learning new skills to expand one's work domain. Modern businesses take initiatives on a regular basis to train their employees about new skills and prepare them to move to a new job within the organisation for mutual benefits. This

way the company finds a more competent resource in a person who is already familiar with organisation's vision, values, clients, and work culture, without investing time and money in hiring an additional resource. On the other hand, re-skilling makes an employee professionally more valuable, his skill set improves, he learns multi-tasking, and gets better chances of promotion and other incentives. All in all, re-skilling creates a win-win equation for both employer and employee.

The next is up-skilling. Though up-skilling of human resources in business organisations is not as new as the concept of re-skilling is, it has become more popular in present times due to cut-throat competition in the business landscape. These are the people

ONE NATION ONE RATION CARD

ENSURING LAST MILE FOOD SUPPLY

Assam has become the 36th State/UT to implement One Nation One Ration Card (ONORC). With this, the ONORC plan has been successfully implemented in all the 36 states/UTs, making food security portable throughout the country.

This is one-of-its-kind Citizen Centric initiative in the country. During the last two years of COVID-19 pandemic, ONORC plan has significantly contributed in ensuring subsidized foodgrains to NFSA (National Food Security Act) beneficiaries, especially migrant beneficiaries.

What is One Nation One Ration Card?

The implementation of nationwide portability of ration cards through "One Nation One Ration Card (ONORC)" scheme, is an endeavour of the Department of Food & Public Distribution, to empower over 80 crore beneficiaries. This plan has been launched under the NFSA-2013, which aims to ensure that anyone can take their share of food grains from any district of any state of the country.

Owing to the defined coverage of beneficiaries under the NFSA-2013 in each State/UT, it was difficult for migrant beneficiaries to get a new ration card issued. And when they were able to get one issued, the duplicity of ration cards/beneficiaries in the country's Targeted Public Distribution System (TPDS) became an issue. This was depriving many other beneficiaries from getting included under the fold of NFSA.

After the implementation of ONORC, while a migrant beneficiary is able to get ration at the destination he or she is working in, his/her family back home is also allowed to get their part of the entitled ration to support itself.

ONORC also provides flexibility to all NFSA beneficiaries to lift their foodgrains from any Fair Price Shop (FPS) of their choice in most parts of the country, by using their same/existing ration card with biometric authentication of identity on an Electronic Point of Sale (e-PoS) device. This mechanism has plugged the leakage/diversion of un-lifted foodgrains in FPSs.

What are its achievements?

The One Nation One Ration Card initiative has been developed fully indigenously with the technical support of National Informatics Centre (NIC). What is remarkable is that the broad based reform of portability covering nearly 81 Crore NFSA beneficiaries in all States/UTs is being achieved with minimal outlay of just Rs. 127 Crore, over a period of 5 years.

Further, this is a one-of-its-kind citizen-centric initiative in the country, swiftly implemented in all 36 States/UTs in a short-span of time, after being sanctioned in 2018-19 and implemented from August 2019. All the States/UTs are integrated in a seamless portability platform, empowering the NFSA population with seamless food security anywhere in the country. In this way, portability of ration is making every NFSA beneficiary AtmaNirbhar.

Under the NSFA, almost **23.6 crore** ration cards have been

EN EXPLAINS

digitized. Almost **93.1%** ration cards and **90.1%** beneficiaries are Aadhaar-seeded at the national level. **Online allocation orders for food grains** for all FPS has been implemented in all States/UTs, besides Chandigarh and Puducherry. **Supply Chain Management** of food grains is computerized in **31 States/UTs**

for online management of stocks in godowns and its in-and-out movement.

The Department of Food and Public Distribution (DFPD) received the prestigious Prime Minister's Award for Excellence in Public Administration, 2020 for its scheme 'One Nation One Ration Card' (ONORC).

How did ONORC help NFSA beneficiaries during COVID pandemic?

One Nation One Ration Card was helpful to NFSA beneficiaries in availing foodgrains

from any location during COVID pandemic/lockdown period. This freedom of choice is a tremendous value-added service to each NFSA beneficiary. Portability is being operated at different levels i.e. Intra-State (Inter-District or Intra-District) and Inter-State. During the period 01-April-2020 to 31-March-2022, about 56.60 crore portability transactions under NFSA have been carried out across States/UTs, benefiting a large number of NFSA beneficiaries, mostly migrants, at the FPSs near to their location of work/temporary stay. Implementation of ONORC has made steady improvement during COVID pandemic period.

'Mera Ration' Mobile App

The Department of Food & Public Distribution in association with NIC has launched a mobile application "MERA RATION" (मेरा राशन) for the benefit of NFSA beneficiaries, particularly migrant beneficiaries to take maximum advantage of the ONORC plan. The salient features of the app which can be easily accessed by beneficiaries using either their Ration Card number or Aadhaar number include the following:

a) **Registration of migrant NFSA beneficiaries:** An optional feature for NFSA

beneficiaries to register their migration details. This information helps the States/UTs in advance planning and provisioning of foodgrains under ONORC for those beneficiaries.

b) **Know your entitlement:** Migrant NFSA beneficiaries as well as their families back home can easily know their available entitlements.

c) **Locate nearby FPS:** The GPS-enabled feature is provided to assist the migrant beneficiaries to identify and locate the closest FOS when in a new State/district/location and also to know whether the shop is open or closed at the moment.

d) **Aadhaar seeding:** Through this feature, the status of Aadhaar seeding with ration cards can be checked instantly.

e) **My Transactions:** The information of past transactions done on the ration card are available like a passbook on the app.

f) **Eligibility criteria:** The feature enables the beneficiaries to check their eligibility status for ration card portability.

g) **ONORC status:** Through this feature, the app provides the list of all States/UTs under ONORC.

h) **Suggestions/Feedback:** An option for beneficiaries and stakeholders to share their suggestions and feedback with the Government.

Currently, the 'Mera Ration' (मेरा राशन) mobile application is available in 13 languages, namely Assamese, Bangla, English, Hindi, Kannada, Odia, Gujarati, Punjabi, Telugu, Malayalam, Marathi, Tamil and Urdu, and can be easily downloaded from Google Play Store.

PM SHRI NARENDRA MODI'S MANN KI BAAT

(26th June 2022)

HIGHLIGHTS

- In the month of June 1975 when Emergency was imposed, all the rights were taken away from the citizens of the country. One amongst those rights was the 'Right to Life and Personal Liberty' provided to all Indians under Article 21 of the Constitution. At that time an attempt was made to crush the democracy of India. The country's courts, every constitutional institution, the press, were put under control. The condition of censorship was such that nothing could be printed without approval. But even after many attempts, thousands of arrests, and atrocities on lakhs of people, the faith of the people of India in democracy did not shake... not at all! The people of India got rid of the emergency and re-established democracy in a democratic way. Today, when the country is celebrating 75 years of its independence, celebrating Amrit Mahotsav, we should never forget that dreadful period of emergency. The generations to come should also not forget. The Amrit Mahotsav not only encompasses the victory saga of freedom from hundreds of years of slavery, but also the journey of 75 years after independence. We move forward, learning from every important stage of history.
- In the past few years, many big feats related to the space sector have been accomplished in our country. One of these achievements of the country has been the creation of an agency named In-Space... an agency that is promoting new opportunities in the space sector for the private sector of India. This beginning has especially attracted the youth of our country. Till a few years ago, in our country, in the space sector, no one even thought about start-ups. Today their number is more than a hundred. All these start-ups are working on ideas, which were either not thought about earlier, or were considered impossible for the private sector. For example, Agnikul and Skyroot are developing launch vehicles

that will take small payloads into space. Similarly, Dhruva Space is working on High Technology Solar Panels for Satellite Deployer and Satellites. Digan-tara, another space start-up, is trying to map waste in space. Similarly Astrome, is making such flat antennas which will not only be small, but their cost will also be very low. Tanvi Patel, a school student of Mehsana is working on a very small satellite, which is going to be launched in space in the next few months. Like Tanvi, about seven hundred and fifty school students in the country are working on 75 such satellites in the Amrit Mahotsav, and it is also a matter of joy that, most of these students are from small towns of the country.

- Recently, our Olympic gold medalist Neeraj Chopra is setting new records of success, one after the other. Neeraj won the silver at Paavo Nurmi Games in Finland. He also broke the record of his own Javelin Throw. Neeraj once again made the country proud by winning the gold in Kuortane Games. This zest is the hallmark of today's youth.
- From Start-Ups to the Sports World, the youth of India are making new records. In the recently held Khelo India Youth Games too, our players set many records. You would love to know that a total of 12 records have been broken in these games - not only that, 11 records have been registered in the names of female players. M. Martina Devi of Manipur has made eight records in weightlifting. Similarly, Sanjana,

Sonakshi and Bhavna have also made different records. With their hard work, these players have proven how much India's prestige is going to rise in international sports arena in the coming times. In the sports world, now, the dominance of Indian players is increasing; at the same time, a new image of Indian sports is also emerging. For example, in Khelo India Youth Games, besides disciplines that are in Olympics, five indigenous sports, were also included this time. These five sports are - Gatka, Thang Ta, Yogan, Kalaripayattu and Mallakhamb.

- There is going to be an international tournament of a game which was born centuries ago in our own country. This is the event of Chess Olympiad beginning from the 28th July. This time, more than 180 countries are participating in the Chess Olympiad.
- Telangana's mountaineer Poorna Malavath has added another feather in her cap by completing the 7 Summit Challenge of surmounting seven most difficult and highest mountain peaks. With her indomitable spirit, Purva ascended the highest peak of North America Mount Denali and brought honour to the country. Poorna is the same daughter of India who had accomplished the amazing feat of conquering Mount Everest at the age of just 13.
- Mithali Raj, one of the most talented cricketers in India, announced her retirement from cricket which has emotionally moved many sports lovers.

Mithali has not only been an extraordinary player, but has also been an inspiration to many players. I wish Mithali all the very best for her future.

- In 'Mann Ki Baat' we have been discussing the successful efforts related to 'waste to wealth'. One such example is that of Aizwal, the capital of Mizoram where the beautiful river 'Chitte Lui' had turned into a heap of dirt and garbage. Efforts have started in the last few years to save this river. For this, local agencies, voluntary organizations and local people, together, are also running the Save Chitte Lui action plan. This campaign of cleaning the river has also made an opportunity for wealth creation from waste. The organization working to save the river, decided to build a road using this polythene, that is, the waste that came out of the river. From that, in a village in Mizoram, the state's first plastic road was built... that is cleanliness and development as well.
- The pollution caused by plastic was also increasing on the sea coast of Puducherry, therefore, to save its sea, beaches and ecology, people there have started the 'Recycling for Life' campaign. Today, thousands of kilograms of garbage is collected and segregated every day in Karaikal, Puducherry. The organic waste from that is made into compost; the rest of the matter is separated and recycled. Such efforts are not only inspiring, but also lend momentum to India's campaign against single use plastic.
- In Udaipur, Rajasthan, there is one Baoli (stepwell) which is hundreds of years old - 'Sultan Ki Baoli'. It was built by Rao Sultan Singh, but due to neglect, gradually this place has become deserted and has turned into a pile of garbage. Saddened by the condition of the stepwell, some youth have resolved to change the picture and destiny of Sultan Ki Baoli. They named this mission of their - 'Sultan se Sur-Tan'. In fact, with their efforts, these youths have not

only rejuvenated the step well, but have also linked it to the notes and melody of the music. There is so much talk of this change, that many people from abroad have started coming to see it.

- Our Upanishads mention about a life mantra- 'Charaiveti-Charaiveti'- you must have heard this mantra too. It means - keep going, keep going. This mantra is so popular in our country because it is part of our nature to keep moving, to be dynamic; to keep moving. That is why our sages and saints had entrusted us with spiritual responsibilities like pilgrimage. All of us go on varied pilgrimages like the Chardham Yatra and the Jagannath Yatra. Lord Jagannath also gives us many deep human messages through this journey. Bhagwan Jagannath is the lord of the world, but the poor and downtrodden have a special participation in his journey. God also walks along with every section and person of the society. Similarly, in all the journeys that take place in our country like the Yatra of Pandharpur in Maharashtra, the Amarnath Yatra, the Sabarimala Yatra, there is no such distinction between poor and rich, high and low. Rising above all discrimination, the journey itself is paramount. Even today, when people go on these yatras, how many opportunities are created for the poor... from religious rituals to lodging arrangements... that is, these yatras directly give us an opportunity to serve the poor and are equally beneficial to them. That is why the country, too, is now making many efforts to increase the facilities for the devotees in their spiritual journeys. If you too go on such a journey, you will also have a glance of Ek Bharat- Shreshtha Bharat along with spirituality.
- We discussed the successes and achievements of the countrymen. In the midst of all this, we also have to take precautions against Corona. However, it is a matter of satisfaction that today the country has a comprehensive protective shield of a vaccine. We have reached close to 200 crore vaccine doses. Precaution dose is also being rapidly administered in the country. If it is time for a precaution dose after your second dose, then you must take this third dose. Make your family members, especially the elderly, take a precautionary dose. We also have to take necessary precautions like hand hygiene and masks. We also have to be alert of the diseases caused by the surrounding filth during the rainy season. All of you stay alert, stay healthy and keep moving forward with similar positive energy.

- Obtaining minimum qualifying marks in the written test does not confer any right or claim by the candidate for being shortlisted for further consideration or the final selection, as the same is related to number of positions, ratio applied and relative performance in the respective categories.
- Shortlisted candidates, in the ratio of 1:2 (two candidates for one post, with due cognizance to number of reserved posts) subject to securing minimum qualifying marks in the written test, will be required to undergo SPPT (Driving Test). The SPPT(Driving Test) shall be conducted by a duly constituted committee.
- In case of tie of marks in the written test for the last position on the Shortlist for SPPT(Driving Test) all such candidates shall be called for the SPPT(Driving Test), even if the total number exceeds the prescribed ratio. If such a situation arises anywhere before the last position while drawing a list, the last name / last few names, in proportion to the prescribed ratio, will get eliminated.
- In SPPT (Driving Test), the technical skill / proficiency / physical ability to handle / operate the vehicle/equipment's of the respective discipline of the shortlisted candidates shall be assessed.
- Category-wise Merit list shall be drawn on the basis of marks obtained in the written test, from and out of the said short-list, only for such candidates declared FIT in SPPT (Driving Test).
- In case of tie of marks for the last position on the Merit List, the candidate with prior date of birth (senior by age) shall find a place in the Merit list. However, the name of the junior shall also be retained in the said Merit List, as the last name. If such a situation arises anywhere before the last position while drawing a list, the last name / last few names in the list, in proportion to the prescribed ratio, will get eliminated.
- Candidates qualifying in SPPT (Driving Test) but not finding place in Merit List can be retained in the waitlist against candidates not joining from Merit List.
- Ex-Servicemen candidates, if found suitable, will be considered against reserved vacancy irrespective of their position in Merit list (in order of merit within the category) on horizontal reservation policy.
- The candidature of the applicant would be provisional and subject to subsequent verification of certificates / testimonials, experience, Medical fitness as per Corporation guidelines etc. At any stage of selection process, if it is found that the candidate has furnished false or incorrect information, the candidature / appointment of the candidate will be cancelled.
- Filling-up of vacancies is solely at the discretion of the management based on suitability of candidates and no claim will arise for appointment, if some of these vacancies are not filled due to unsuitability of available candidates or insufficiency in number of candidates.
- The decision of the Management will be final and binding on all candidates on all matters relating to eligibility, acceptance or rejection of the application, mode of selection, cancellation of the selection process either in part or full, etc. No correspondence will be entertained in this regard.

UPSKILLING & RESKILLING BOOSTING ...

who help an organisation to meet its targets and achieve milestones, time after time. To beat market competition, organisations want to recruit efficient and skilful resources. But, as learning has no end, skill up-gradation of employees is as imperative as the up-gradation of system and equipment in the organisation. So, up-skilling is adding some new skills in an employee's existing skillset for the purpose of enabling him time-ready to meet the current as well as future demands of his job profile. An employer up-skill the employees and entrust them greater responsibilities so that they may prepare themselves for more challenging and senior roles.

Benefits to People & Businesses

I recently read an article where it cited a report by TalentLMS, pointed out that ever since the pandemic began, about 42% of companies have increased their re-skilling and up-skilling efforts and 74% of employees who didn't receive any additional skill training said they would prefer to work for a company that provides their employees with re-skilling and up-skilling opportunities.

There are enormous benefits of these both learning initiatives, not only to the organisation but to the employee as well. Re-skilling and up-skilling are opening new growth vistas for working professionals not only in their current organisations but also in

the job market they are offered with better increments and benefits. On the other hand, due to a huge gap between the demand and supply of skilled and experienced talent, no organisation wants to leave its people. So, they provide enough growth opportunities within the company, make strategies to improve company's culture, and create policies to increase retention and resilience. Overall, they do everything to share a positive employee experience with teams and individuals.

Another reason why we must invest in up-skilling and re-skilling is purely for a boost. Boost in productivity and energy. It's easy for us to lose enthusiasm at work and can happen for many reasons. Feeling like you're not great at what you do anymore is a biggie and can impact on your self-confidence. It's common amongst those who have been out of the workforce for a time. Rest assured, there's a way back to confidence and personal growth.

Relevance in the 21st Century

Hence that brings me to the question, why these two concepts are getting extremely popular in the present time? Well, as we navigate our way out through this pandemic and more importantly move into a more digitized world, knowing something is simply not going to cut it. Needs are changing. Demands are changing. Businesses are becoming more and more technology-driven and

technology is evolving at the speed of light. This the age of artificial learning (AI), machine learning, (ML), augmented learning (AL), and block chain, and businesses wants to exploit them for exponential growth with the help of competent and highly skilled personnel. To align with the present market demands, it is the pressing need of every progressive business that wishes to keep itself stay ahead of the competition.

Prospects & Initiatives

I am a firm believer that despite all the challenges that have emerged in 2020 due to the COVID-19 pandemic, we will emerge stronger as a country and Indian businesses will soon witness a watershed moment that will propel them into a space of unprecedented growth and success. But for that to happen, we need to keep up with the world that is changing every second. And up-skilling and re-skilling is the only way to do that. That's why the Government of India introduced the Ministry of Skill Development and Entrepreneurship in 2014, whose objective is leveraging skill development efforts throughout the nation and fixing the gap between demand and supply of skilled manpower. To pursue its vision of 'Skilled India', the ministry has also developed various vocational and technical programmes to up-skill people in urban as well as rural India.

Areas to Upskill

But what are the areas to up-skill in? If you are not sure what to up-skill in, consider where there

might be skill gaps within the company you're going for the promotion with, and get training in them. Knowing what kind of technology is driving innovation in your industry can also guide your training choices. By taking a proactive approach you will empower yourself and fuel your career growth.

Once you have some ideas of roles you'd like to pursue, find out which skills you need to gain, and then look into the training opportunities that are available. Better, still find out if you can do an in-house secondment or placement to get a feel for the role or department. Your HR manager can help you put together a personal development plan to turn your learning and development goals into reality.

How to up-skill and re-skill

How to up-skill or re-skill yourself? Well, that is easy! You have sites like coursera, upgrad, udemy and so many more that help you with courses as per your job requirement such as digital marketing, analytics, and data science. Whereas, platforms like skill share, help you to learn something new from experts at your own convenience in the field of photography, video editing, writing etc. More importantly, they are super affordable and can be a really good one-time investment.

Another option that does come to mind and that is if you are currently working it would be worth discussing your interest in up-skilling with your manager. The end of the financial year is nearing (how on Earth is it June already?!) and there's every chance that there's some unspent training budget available. It's worth asking, especially if you are also open to sharing your new-found knowledge with team mates once you're done!

Why companies invest in up-skilling & re-skilling of their employees

To state the absolute obvious, we reside in a world of technological advancements, and for any business to become successful, technology plays an important role. A business that wants to thrive in these changing conditions will need a workforce

with new skills, especially digital skills. To keep up with these dynamic times, many companies are investing heavily in up-skilling programmes.

Recently, Amazon announced that it would invest US \$ 700 MN in its up-skilling programme, to train 1, 00,000 workers to move into technical and non-technical roles. Rather than recruiting brand-new staff for their organizations, employers are spending money on up-skilling their existing team. New emerging technologies in Artificial Intelligence, Machine Learning and Data analysis are now advanced enough to change entire job roles, and the workforce will have to adapt to new tasks and change how they bring value.

By Up-skilling the workforce, the employers tend to boost the employees' morale and get them excited about future opportunities in the Company. When employees are confident about their job security and observe a career progression in place, their contribution to the workforce greatly increases. Up-skilling is a vital tool that more of today's corporations must consider as a means to bridge rifts linked to employee engagement and remembrance.

One pivotal thing to note here and that is up-skilling the workforce is a smaller investment than hiring and training a new worker. Moreover, if a company invests in its employees' career development, it develops a positive mind-set among the Company's employees

We do need to understand something here and that is, up-skilling is not only about meeting 'industry demands' and filling skill gaps. It's as much about you discovering what you're interested in. Let's face it - you're more likely to commit to a career and organisation if you actually like what you're doing. The key here is to follow your curiosity.

ISSUE DATED 18-24 June 2022

Question: International Day of Yoga is celebrated on June 21 every year. The theme of this year's IDY is 'Yoga for Humanity'. Do you practice Yoga? If yes, what motivated/inspired you to start your yoga journey? Also, let us know how you feel yoga has changed your life.

GARIMA KAPOOR

NEW DELHI

'Yoga' is derived from Sanskrit and means to join or to unite, symbolising the union of body and consciousness. It is a spiritual discipline that aims to achieve eternal peace and harmony between mind, body and soul. International Day of Yoga (IDY) is celebrated on June 21 every year and was proposed by India in United Nations General Assembly's (UNGA) session in 2014. This year's theme is 'Yoga for Humanity' which promotes a holistic route towards mental and physical wellbeing.

Yes, I do practice yoga and my biggest inspiration has been my early years at school. A compulsory 30 minutes of yoga at school energised me and helped me in completing my tasks in a timely and an efficient manner leading to better results and internal happiness. Continuing the daily practice of yoga has only assisted me towards a healthy lifestyle.

COVID-19 and the subsequent lockdown has drained the mental, spiritual and physical health of many but, yoga helped me sail through this tumultuous period by providing me inner strength, both mental and physical.

Yoga has changed my life for better. From being impatient in small situations it has taught me to be patient in order to lead a peaceful life. Yoga has improved my flexibility and posture thereby building my self-esteem and confidence.

Yoga is an ancient discipline and is now being rightfully given the recognition it really deserves, as it makes its way to enlighten billions with emotions like love, peace and universal integration.

PREVENTING PLASTIC POLLUTION WITH ...

90 percent of the seabirds tested and 100 percent of the turtles. Alarming, scientists estimate that there will be more plastic than fish in the ocean by weight in 2050. Not only is plastic estimated to kill millions of marine animals and seabirds each year, it is also contaminating seafood that humans have relied on for millennia, particularly with microplastics in animals' guts.

Single Use Plastic - Dangerous to All Life Forms on Earth

Single-use plastic are those items that are used only once and discarded. The adverse impacts of littered single use plastic items on both terrestrial and aquatic ecosystems, including in marine environment, are globally recognized. Addressing pollution due to single use plastic items has become an important environmental challenge confronting all countries.

Single-use plastic products (SUPPs) may epitomize convenience, but with the damage they cause through production, distribution and litter, they are a major threat to environmental and human health. The UN Environment Programme's (UNEP's) report titled 'From Pollution to Solution' shows there are currently between 75-199 million tons of plastic waste in the ocean, and in 2016 some 9-14 tons of waste entered the aquatic ecosystem. It is estimated that by 2040, this will have almost tripled to 23-37

million tons per year. Plastics are the largest, most harmful and most persistent of marine litter, accounting for at least 85 per cent of all marine waste. India alone generates 9.46 million tonnes of plastic waste every year, around 43% of which comprises single-use plastic. It poses a mammoth problem for India since 40% of plastic waste remains uncollected.

According to World Wildlife Fund (WWF), plastic is harmful to the environment as it is non-biodegradable, takes years to disintegrate. Single-use plastics slowly and gradually break down into smaller pieces known as microplastics. It can take thousands of years for plastic bags to decompose, thus contaminating our soil and water in the process. The noxious chemicals used to produce plastic gets transmitted to animal tissue, and finally, enter the human food chain, the WWF claims. Birds usually confuse shreds of plastic bags for food and end up eating the toxic debris. Fish consume thousands of tons of plastic in a year, ultimately transferring it up the food chain to marine mammals.

Single-use plastics are a glaring example of the problems with throwaway culture. Instead of investing in quality goods that will last, we often prioritize convenience over durability and consideration of long-term impacts. Our reliance on these plastics means we are accumulating waste at a staggering rate. We produce 300 million tons of

plastic each year worldwide, half of which is for single-use items. That's nearly equivalent to the weight of the entire human population.

Single Use Plastic Items Prohibited from 1st July 2022 in India**A-Plastic Sticks**

1. Ear-buds
2. Balloons
3. Candy
4. Ice-cream

B- Cutlery Items

1. Plates, cups, glasses, forks, spoons, knives, trays
2. Glass
3. Forks
4. Spoons
5. Knives
6. Trays

C- Packaging/Wrapping Films

1. Sweet box
2. Invitation cards
3. Cigarette Packets

D- Other Items

1. PVC banners < 100 µm
2. Polystyrene for decoration

Ensuring Effective Enforcement

- National and State level control rooms have been set up and special enforcement teams formed for checking illegal manufacture, import, stocking, distribution, sale and use of banned single use plastic items.
- States and Union Territories have been asked to set up border check points to stop inter-state movement of any banned single use plastic items.
- Capacity building workshops are being organized for MSME units to provide them technical assistance for manufacturing of alternatives

to banned single use plastic items with the involvement of CPCB/SPCBs/PCCs along with Ministry of Small Micro and Medium Enterprises and Central Institute of Petrochemicals Engineering (CIPET) and their state centres. Provisions have also been made to support such enterprises in transitioning away from banned single use plastics.

- The Government of India has also taken steps to promote innovation and provide an ecosystem for accelerated penetration and availability of alternatives all across the country.
- CPCB Grievance Redressal App has been launched to empower citizens to help curb plastic menace. For wider public outreach, PRAKRITI - mascot was also launched on 5th April.
- The Government has been taking measures for awareness generation towards elimination of single use

plastics. The awareness campaign has brought together entrepreneurs and startups, industry, Central, State and Local Governments, regulatory bodies, experts, citizens organizations, R & D and academic institutions.

- The Central Pollution Control Board (CPCB) has already issued one-time certificates to around 200 manufacturers of compostable plastic. These certificates do not require renewal which is in line with ease-of-doing-business policy of the Government. Further, an online portal has been developed to facilitate certification of these manufacturers.

PM Launches News Schemes for MSMEs during Udyami Bharat

The Ministry of Micro, Small and Medium Enterprises (MSME) organized Udyami Bharat programme on the occasion of International MSME Day and grand finale of Enterprise India Campaign on 30th June, 2022 in New Delhi. On the occasion,

PM Shri Narendra Modi launched new schemes including the Raising and Accelerating MSME Performance (RAMP), Capacity Building for First-Time Exporters (CBFTE), and New Features under Prime Minister Employment Generation Program (PMEGP). Furthermore, the PM transferred assistance to 18000 PMEGP beneficiaries for FY 22-23, as well as digital equity certificates to 75 MSMEs supported by the SRI (Self Reliant India) Fund and presented the National MSME Awards as well as announced the winners of the MSME Idea Hackathon 2022. Describing MSMEs as a huge pillar of India's growth journey and extremely critical for employment generation, the PM remarked that this sector is a major medium for achieving the pledges of 'Amrit Kaal' of India's independence.

Govt Certifies First Batch of Village Engineers; Model to be Replicated Nationwide

The first batch of 140 'village engineers' trained under the Rural Tribal Technical Training (Grameen Udhya) Project have successfully completed the training and were conferred Skill Certificates by the Union Ministry of Skill Development and Entrepreneurship in Bhopal, Madhya Pradesh on 30th June

2022. Expressing his satisfaction on the pilot project, Skill Development Minister Shri Rajeev Chandrashekar affirmed that the pilot programme offers a launch pad for replicating its success to other districts across the Nation. Training was provided to the beneficiaries in 5 disciplines- electrical and solar energy, agricultural mechanization, e-governance, plumbing and masonry, two wheeler repair and maintenance. This training will also enable the youth to start their own business, thus generating more employment opportunities for other youth as well.

Training In Engineering Trades to Boost Capital Goods Sector

The Ministry of Skill Development and Entrepreneurship (MSDE) and the Ministry of Heavy Industries (MHI) have signed a Memorandum of Understanding (MoU) to create a collaborative ecosystem for imparting skill development training in the capital goods sector. Under the partnership, MSDE through National Skill Development Corporation (NSDC) will facilitate linkages between various Sector Skill Councils (SSCs) and industry partners for imparting skilling in engineering trades under the Scheme for Enhancement of Competitiveness in the Capital Goods Sector Phase II. The heavy manufacturing industry is one of the most important sectors in terms of employment generation, exports, and value addition to the economy. Capital Goods Sector directly employs 1.4 million people. The indirect employment is 7 million.

UK Offers 75 Fully-Funded Scholarships for Indian Students

In celebration of India's 75th anniversary of independence, the UK government has partnered with leading businesses in India to offer 75 fully-funded scholarships for Indian students to study in Britain from September this year. In a statement, the British High Commission (BHC) said, this is the highest number of fully-funded scholarships given for the one-year master's programme to date. Companies like HSBC, Pearson India, Hindustan Unilever, Tata Sons and Duolingo are supporting this special initiative. The programmes on offer include Chevening scholarships for a one-year master's programme, with the opportunity to study any subject at any recognised UK university. Further, the British Council in India is offering at least 18 scholarships for women in science, technology, engineering and mathematics (STEM) covering over 12,000 courses across more than 150 UK universities. Along with these, the British Council is also offering six English scholarships.

G7 Announces \$ 600 Billion Infrastructure Initiative for Developing Countries

Leaders of the Group of Seven (G7) have announced a \$ 600 billion infrastructure initiative to help developing countries tackle climate change. The

announcement was made during the three-day talks held in Germany's Bavarian Alps. The initiative is seen as the West's response to China's massive Belt and Road Initiative (BRI). US President Joe Biden said, this is not aid or charity but an investment that will deliver returns for everyone...It will boost all of our economies. EU Commission chief Ursula von der Leyen said G7 is offering sustainable, quality infrastructure and will be listening closely to the recipient countries. On India's part, PM Shri Narendra Modi hoped that rich countries of G-7 will support India's efforts in combating climate change and invited them to tap the huge market for clean energy technologies emerging in the country.

Cabinet Clears Deregulation of Sale of Domestically Produced Crude Oil

The Cabinet Committee on Economic Affairs (CCEA) has approved 'Deregulation of Sale of Domestically Produced Crude Oil' from 1st October 2022. With this, all Exploration and Production (E&P) operators will now be free to sell crude oil from their fields in domestic market. Government revenues like royalty, cess, etc. will continue to be calculated on uniform basis across all contracts. As earlier, exports will not be permissible. This decision will further spur economic activities, incentivize making investments in upstream oil and gas sector. The policies relating to production, infrastructure and marketing of oil and gas have been made more transparent with a focus on ease of doing business and facilitating more operational flexibility to operators/industry.
